WORK EXPERIENCE

I have experience as a frontend developer working independently and for private clients, demonstrating effective communication skills and the ability to produce high-quality work within tight deadlines.

- Frontend Programmer at various companies, with a focus on developing high-quality user interfaces using technologies such as JavaScript, React, CSS, and HTML.
- Developed multiple projects using various front-end technologies, including e-commerce websites, social media platforms, and web applications.

ONGOING STUDIES.

Specialized Front-end Course (Oracle One) Full Stack Programmer Bootcamp (Openbootcamp)
